

Take It Off The Beaten Path

If you plan to explore the trail less traveled, coast a sandy beach or head out to your favorite hunting spot in the woods, the Segway® Personal Transporter (PT) x2 SE easily negotiates rugged terrain and is the right choice for you. It's deeply treaded tires, wider track and higher ground clearance give you the safe, smooth and stable ride you expect — and its oversized handles make it easy to hoist in or out of almost any vehicle.

*Actual range depends on terrain, payload and riding style

SEG SOLUTIONS

TURF SOLUTION

Low pressure tires glide gently over a wide variety of terrain and ensure a comfortable ride, yet still provide the traction needed to easily navigate steep hills and off-road landscapes. The package is available in the Mossy Oak Break-Up Infinity™ pattern and is compatible with our SegSolution quick release storage options.

ADVENTURE SOLUTION

Nature lovers remain undetected thanks to the PT's nearly silent motor and Mossy Oak Break-Up Infinity customization. The quick release storage system allows for conveniently carrying whatever you'd like to bring along (binoculars, camera and provisions) on your adventure. This package also delivers a handlebar accessory that features a smartphone/tablet articulating mount to help riders navigate and stay connected.

SILENT HUNTER SOLUTION

This solution is an enhancement of our Adventure package. It features a quick release storage system for easy loading and unloading, practically transports basic hunting equipment — and a gun scabbard can be added*. Finally, this configuration offers the incredibly useful Power Pack Front Mount Case that provides hunters more storage as well as a 12 volt battery to power additional lighting or a smartphone/tablet.

*Gun scabbard will be available in late 2014

CAMOUFLAGE SOLUTION

Camo your glide, venture out and explore -- purely for fun! This package appeals to the inner warrior in all of us with its Mossy Oak Break-Up Infinity camouflage pattern. It's adhered to the LeanSteer, center console and fenders with a robotics application process to ensure a superior quality finish.
