

ZÜMAROUND

SEAMLESSLY SWITCH FROM **BATTERY-POWERED** TO HUMAN-POWERED AND BACK AGAIN.

ZÜMAROUND SCOOTERS OFFER A COMFORTABLE AND FUN RIDING EXPERIENCE LIKE NO OTHER.

ZUMAROUND ELECTRIC PUSH SCOOTERS COME IN THREE MODELS

MINIZÜM

ZÜM

MAXIZÜM

Zümaround frames come with a two year warranty. The warranty for the battery is for two years or 500 full charging cycles, whichever comes first.

MINIZÜM

COLLAPSIBLE & LIGHTWEIGHT

The miniZüm features some exciting Zümaround developments. The motor is in the back, making it even easier to pick up the miniZüm and bring it with you anywhere. MiniZüm electric push scooters also feature a lower and wider platform making for more comfortable rides, and reinforced wheels for safety. Other features include:

- 12" pneumatic tires
- Double wall alloy rims, stainless steel spokes
- Removable and rechargeable Lithium-ion battery offering a maximum distance of 20

miles (32km)

- Two e-brakes, front and rear
- Extendable handle bar, for a person as tall as 6'8"
- Kickstand, Bell, Fenders, Reflector
- Comes with carrying handle
- Double wall rim wheels
- Total weight of 31 pounds (14.5 kg), battery weighs 5 pounds
- Maximum speed of 25 km per hour (16 mph)
- Maximum rider weight of 375 lbs.

The miniZüm electric push scooter comes fully assembled and ready to ride right out of the box! It is collapsible to fit in tight spaces, like by your desk during the day or in the trunk of a car, or bring it on the subway. Buy the miniZüm today!

ZÜM

THE ORIGINAL

The Züm was the first electric hybrid push scooter released. The maximum speed of the Züm is 20mph (32km/h) with a battery life of 20 miles (32km) depending on rider weight, terrain and wind conditions. It also features Zümaround's signature quiet motor, which is a brushless, geared frictionless 250w hub DC motor. Other Züm features include:

- 20" pneumatic tires
- Double wall rim front wheel
- Removable and rechargeable Lithium-ion battery offering a maximum distance of 20 miles (32km)
- Two e-brakes, front and rear
- Extendable handle bar, for a person as tall as 6'4"
- Kickstand, Bell, Fender, Reflector
- Total weight of the Züm, including battery is 36 lbs (16kg)
- Maximum speed of 32 km per hour (20 mph)
- Maximum rider weight: 375 pounds*

*That's the biggest carrying capacity available in the market today! Order your Züm today!

MAXIZÜM

GO FARTHER IN COMFORT

The maxiZüm is the newest Zümaround in the family, offering the smoothest and longest ride of any of our models. Go twice as far on one trip without having to recharge or kick.

- 26" pneumatic tires
- Double wall rim front wheel
- Removable and rechargeable Lithium-ion battery offering a maximum distance of 38 miles (60km)
- Two e-brakes, front and rear
- Extendable handle bar, for a person as tall as 6'6"
- Kickstand, Bell, Fender, Reflector
- Total weight of the maxiZüm, including battery is 44 lbs (20kg)
- Maximum speed of 34 km per hour (21 mph)

Maximum rider weight: 375 pounds

The maxiZüm is the limousine of electric push scooters, so order yours today!

ABOUT ZÜMAROUND ELECTRIC KICK SCOOTERS

THE ORIGINAL

Zümarounds were the original electric kick scooters on the market and they continue to be the most **comfortable, reliable and safe** personal transportation system available today.

COMFORT THAT DELIGHTS

All Zümaround electric scooters come with pneumatic tires so you won't feel the bumps on the road any more than if you were riding a bicycle. Our platforms are wide enough to let you stand naturally on the platform while you zoom down the street, and low enough to offer a seamless electric-assist riding experience.

SAFETY FIRST

All of our hybrid kick scooters are outfitted with front and rear e-brakes, which are like bicycle brakes attached to the motor. When you squeeze the brake, the motor shuts off, even if you are still pressing the throttle. **Slow down at the speed you like.** Always remember to always wear a helmet and follow all e-bike traffic laws when riding.

COMMUTING WITH EASE

Navigate street traffic with control and ease on Zümaround electric kick scooters. Standing up offers easier maneuverability and greater stability than a bicycle. And our **collapsible** miniZüm model easily goes with you on the subway, fits in the trunk of a car or under a desk, so you can take it with you anywhere.

EXPLORE THE WORLD AROUND YOU

With our incredibly comfortable electric push scooters, you can spend the day casually gliding down a bike path and listening to the sounds of nature around you. Our signature **quiet motor system** makes riding an enjoyable and stress-free experience.

ADD EXERCISE INTO YOUR DAY

Zümarounds are **hybrid push scooters**, giving you the option not to use the battery if you would like to add some exercise into your day. Kick on flat roads and choose to use the battery when encountering hills or headwinds. You can feel secure knowing you always have a way to get home, even if the battery runs out.

ECO-FRIENDLY

No need to rely on fossil fuels, Zümaround electric push scooters come with rechargeable batteries that last a minimum of 500 cycles, or about 10,000 miles, and will take you about 20 miles on a single charge. The battery is

lockable and removable, so you don't have to drag the whole scooter with you to connect it to a power source. Just unlock the battery and take it with you.

OUR CUSTOMERS THINK ZÜMAROUNDS ARE THE BEST ELECTRIC SCOOTERS ON THE MARKET TODAY!

I am very pleased with the Zümaround and it has become an indispensable, very fun part of my life.

[Dr. Richard Rosenthal](#) Park City, Utah

Nine minutes to work and not arriving all sweaty. This is exactly what I've been looking for!

Vance Logan Toronto, Ontario

Lots of good trails around here. I'm putting 50 kms on it a week at least. It's nice to avoid traffic so I use it to get groceries too.

Justin - about his miniZüm British Columbia

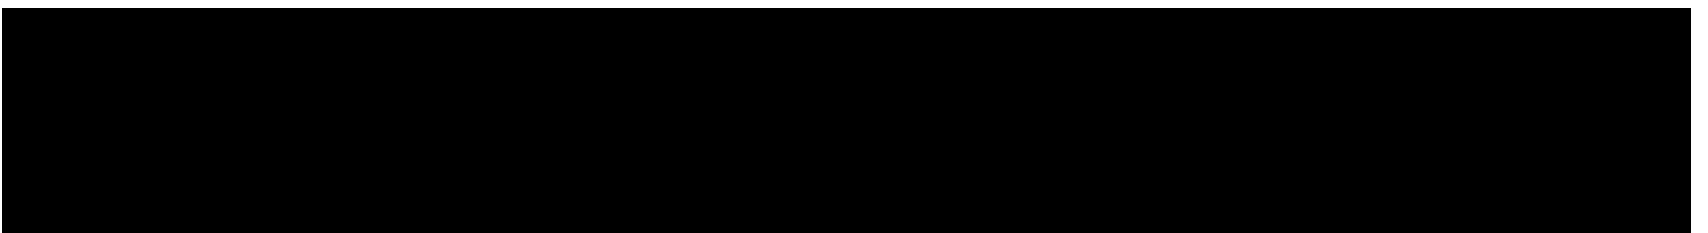

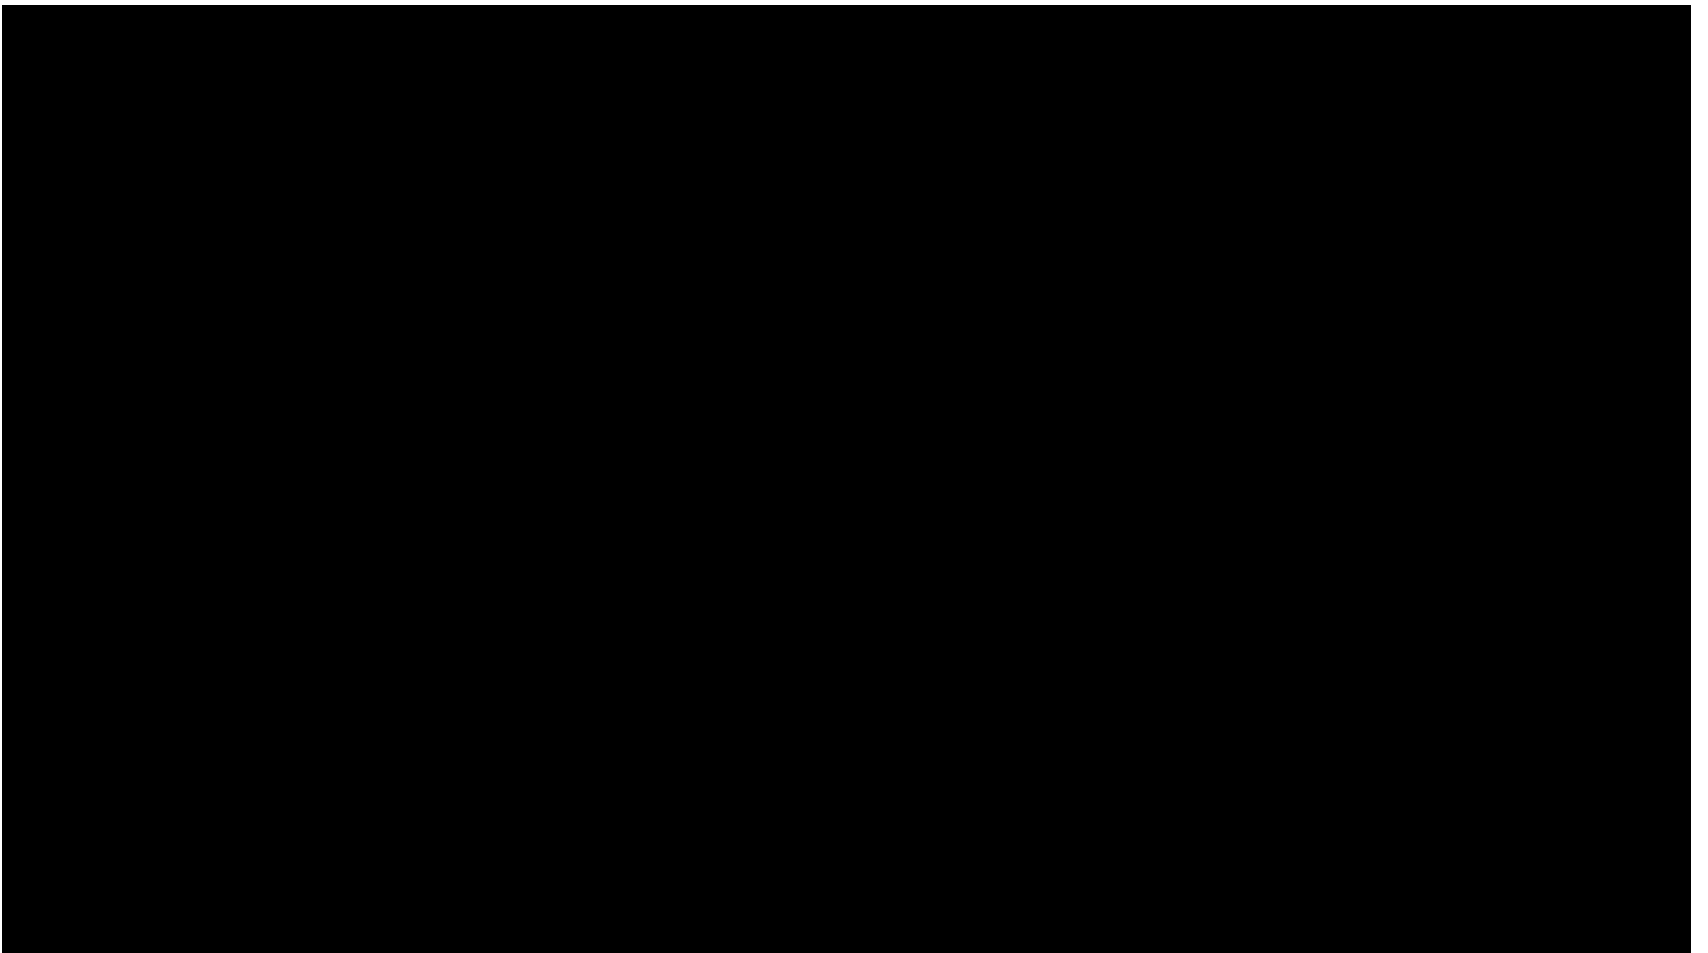

I took a ride from home to Kensington, back home, then to Dufferin and Lawrence, so about 15 km. The power still has a couple of greens. The ride up was great and smooth!

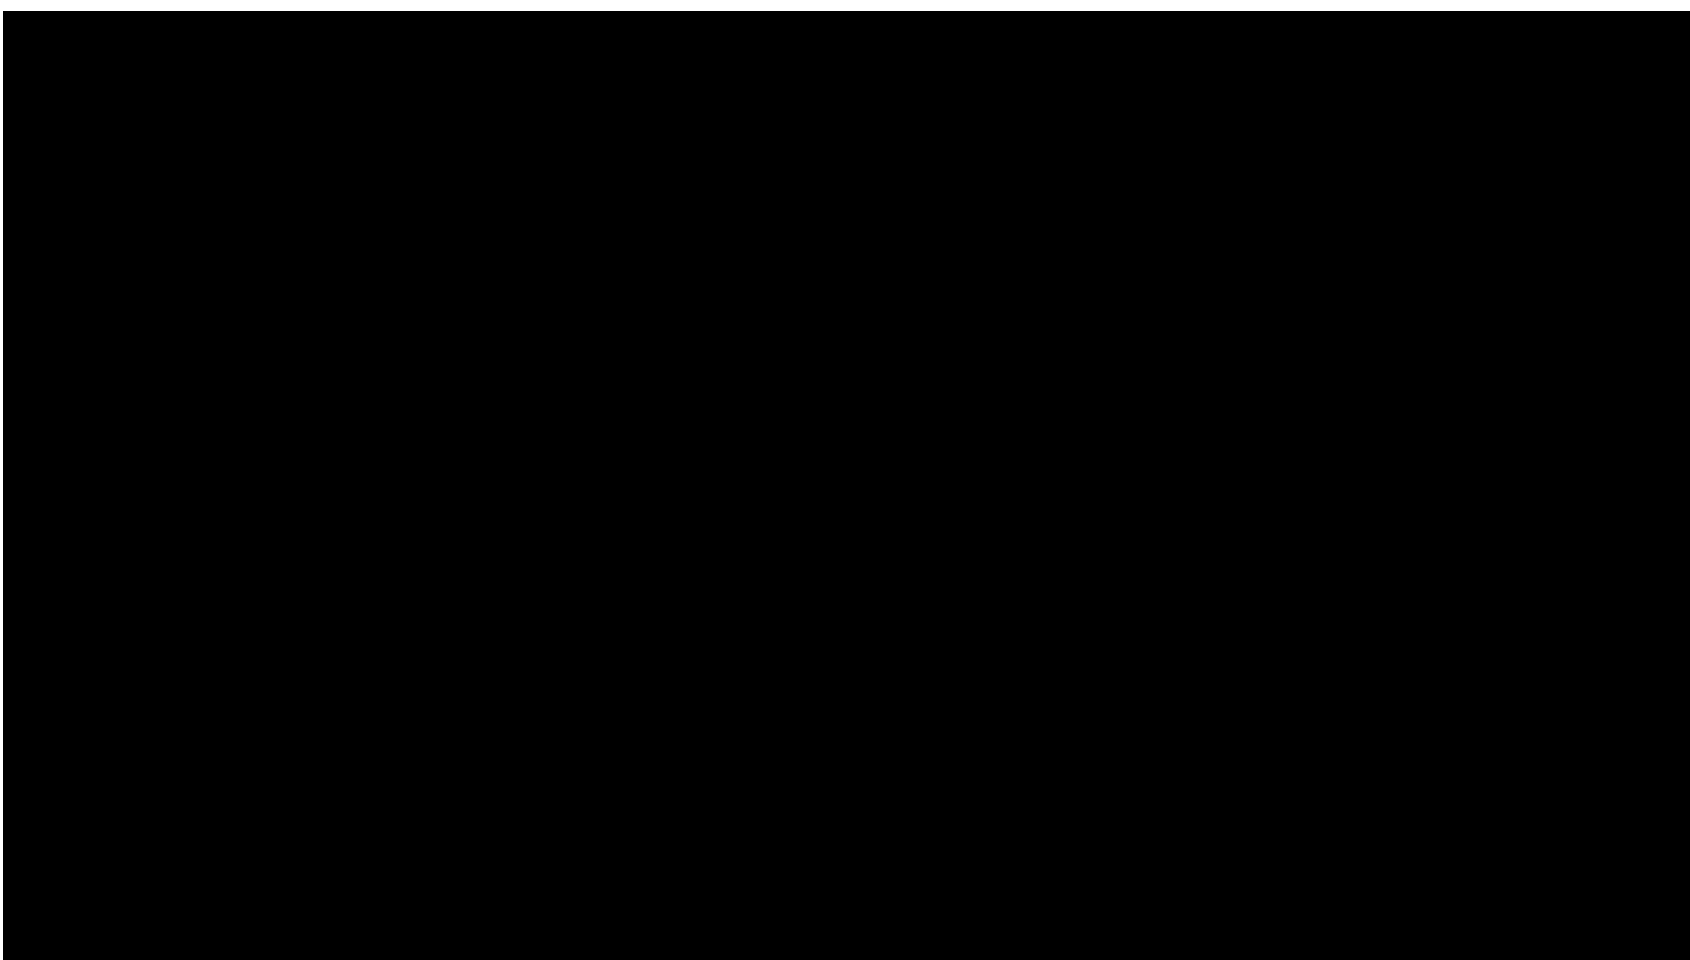

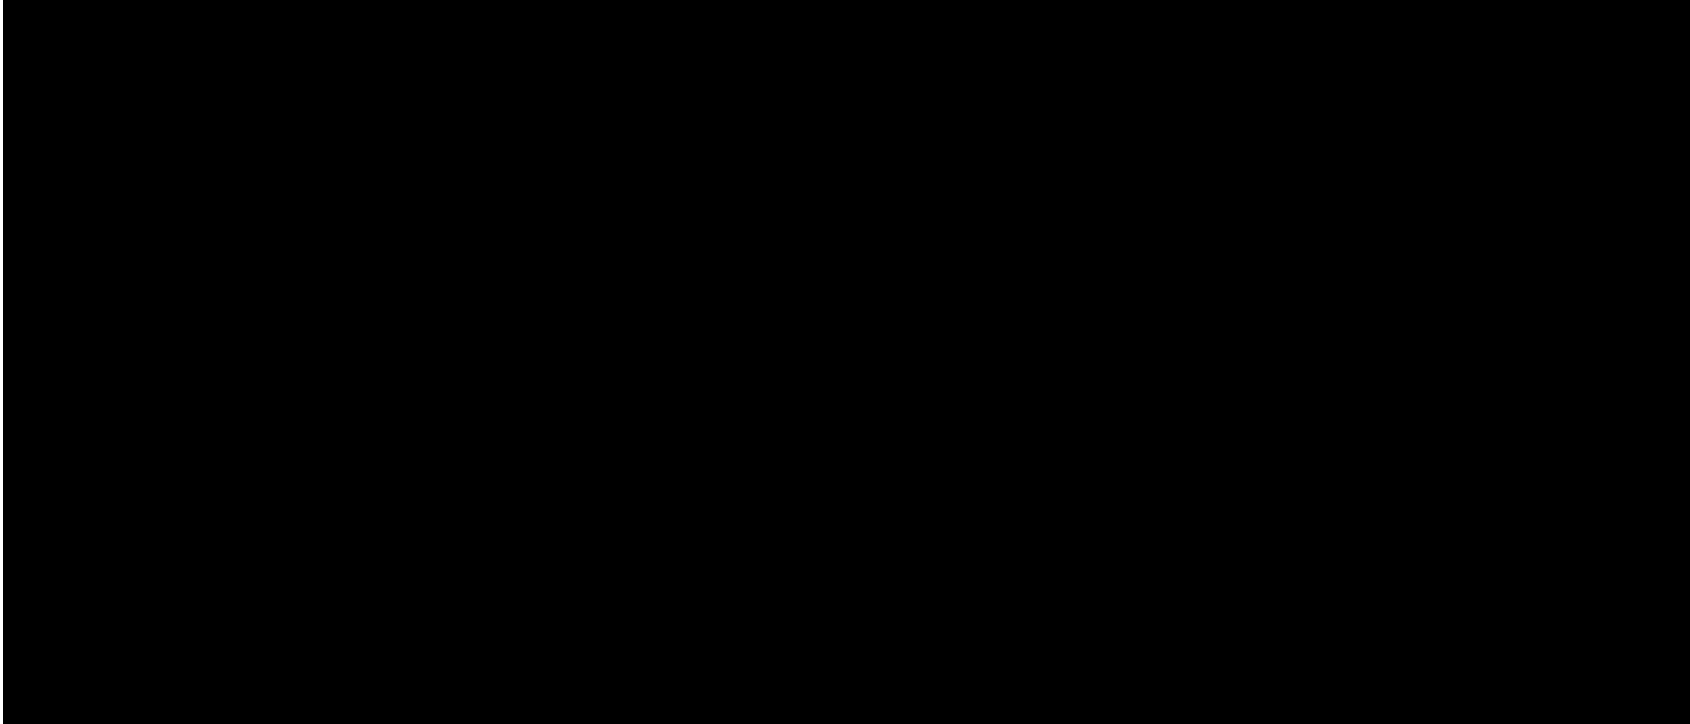

Noah Goldstein Toronto, Ontario
