THE MINIPRO IS NOT A TOY; IT WAS DEVELOPED WITH ADVANCED BALANCING TECHNOLOGY THAT READS YOUR MOVEMENTS VIA COMPLEX ALGORITHMS, SENSORS AND PROCESSORS AT 200 TIMES PER SECOND AND REACTS ACCORDINGLY. FEATURING A POWERFUL LITHIUM BATTERY FOR SUSTAINABLE POWER, THE MINIPRO CAN TRAVEL UP TO 16 MILES ON A SINGLE CHARGE, HIT A MAX SPEED OF 11 MPH, TAKE ON SLOPES OF UP TO 15 DEGREES AND ACCOMMODATE RIDERS UP TO 220 POUNDS. AT A PORTABLE SIZE OF 2 FEET TALL AND ONLY 28 POUNDS, IT CAN EASILY FIT INTO ANY VEHICLE. EVEN MORE IMPRESSIVE, RIDERS MAY USE THEIR SMARTPHONE TO UPGRADE THE MINIPRO'S FIRMWARE TO MONITOR SPEED, ENABLE A TAMPER ALARM OR EVEN REMOTELY OPERATE THEIR MINIPRO VIA BLUETOOTH. THE REMOTE DRIVING FEATURE ALLOWS FOR COMPLETE CONTROL OVER THE MINIPRO'S SPEED AND TURNING RADIUS.

AVAILABLE IN
